INDIVIDUAL TRAVEL ALLOWANCE

Simple and compliant!

MISTRAL-ITA

Your choice for individual Per-Diem calculations

OUR SOLUTION FOR AUSTRIA

In Austria, the regulations for travel and expense management are defined not only by law, but also in individual Collective Labour Agreements. rocon has developed MISTRAL-ITA, a solution with which these individual Per-Diem calculations effortlessly can be mapped in Concur Expense.

SAP Concur **Partner**

Advantages:

- ✓ Simple mapping of all Austrian Collective Labour Agreements in Concur Expense
- ✓ We will design according to your specific requirements
- ✓ Support your Accounting/Finance Team with smart analyses
- ✓ Native user interface

Austrian Collective Labour Agreements

In Austria, the regulations for travel and expense management are defined not only by law, but also in individual collective agreements. Daily rates and tax requirements vary from sector to sector.

We have therefore developed a solution supporting all Austrian Collective Labour Agreements and "Betriebsvereinbarungen" in Concur Expense.

ADD-ON: MISTRAL-ITA

Our add-on will be set up according to your specific requirements. Furthermore, in the event of a change, the industry-specific Collective Labour Agreement can be adapted accordingly.

On top of this our ITA convinces with ease of use.

The solution for Austria fits seamlessly into the process-chain of numerous SAP Concur products.

As SAP Concur Partner, Certified for Implementation, we will be happy to advise you on the optimal use of the T&E solution.

How to use the Individual Travel Allowance

In the expense report, simply select the Individual Travel Allowance Expense Type. All expenses, for example daily rates, are easy to create. Hover with your cursor over the info button and helpful additional information, such as taxable/non-taxable amounts is being displayed.

Transparent Travel and Expense Management - also for approvers

Thanks to the structured listing of all items and the option to add supporting comments, the approver is able to easily review all expenses.

Reports & Analyses

ITA provides you with detailed analyses of all itinerary items such as departure/arrival information as well as income tax related data. Our rocon experts will support you in setting up your specific reporting requirements.

ROCON CLOUD

Compliant & Secure!

Our add-ons are subject to strict IT security regulations and are frequently audited.
We adhere to the DSGVO and ISO-Norms: DIN ISO 27001, DIN ISO 27017, DIN ISO 27018.

MISTRAL: The complete middleware for SAP Concur

Using the MISTRAL interface technology, we integrate SAP Concur into your IT landscape. MISTRAL provides add-ons and extensions such as ITA. With MISTRAL you can connect any ERP or HR system or other third party systems with SAP Concur. For example, automate the transfer of employee data to SAP Concur via ETL and standardize your data management. Therefore accelerating your travel expense management processes.
